

# *Tuscania* Passenger List

Compiled by Marilyn C. Gahm

This is a list of the 2,174 soldiers in the U.S. Army and two U.S. civilians aboard *Tuscania*.

The list is arranged alphabetically by man's surname – with birth date/location and death date/location, if known. Some of the men sailed with aliases. Some changed their names after the war, or chose to register for war with a different name than used prior to/after the war.

The two-letter state codes are the U.S. Postal Service codes (available at the end of this document).

For more details on a soldier, check the “virtual cemetery” on the Find A Grave online website ([www.findagrave.com](http://www.findagrave.com)) at: <https://www.findagrave.com/virtual-cemetery/999669>, which lists the over 1,900 men whose burial records have been located on Find A Grave.

Errors may exist. As with all historical documentation, errors exist in the original documents as well as in transcriptions and indexes.
